

## Independence-Student-Friendly Learning Scale

**Goal: INDEPENDENCE:** It is always a goal of Montessori education in the classrooms to make the child independent and be able to do things for her/himself. This is achieved by giving children opportunities. When the children are able to do things for themselves there is an increase in their self belief, self confidence and esteem that they may carry on throughout their life.

**Behavioral Target:** Students will be independent throughout the school day.
